ULUGBEK ABDULOEV

FRONT END DEVELOPER

PERSONAL BACKGROUND

I am a Web Developer specializing in Front-end Development and UI/UX Design.
I have been working professionally in these fields for over 2 years. I'm always curious to create, to improvise and to deliver the best design that fits with what user wants and needs.
Very well experienced with HTML, CSS, JavaScript (jQuery), Bootstrap and etc, as I have done a decent number of front-end projects using these languages and frameworks.
My goal is to produce high quality, good organized and SEO-friendly code.
